Disability Connect news

Support groups – Disability Connect

Disability Connect offers culturally appropriate support (including three support groups) to families with children of special needs as part of the CALD service (Culturally and Linguistically Diverse Disability Information and Advisory Service):

Chinese Families Autism Support Group

Runs every third Tuesday of the month. Please contact Sanny Chan at Disability Connect for more information on our meetings. Our Christmas party is to be held on the 6th December ph 09 526 1298 (DDI) or 09 636 0351 or sanny@disabilityconnect.org.nz

Culturally Diverse Support Group (Otahuhu)

This support group runs monthly. Our next meeting will be held on the 8th December at Mt Richmond School, 5.30-8pm. All families with special needs are welcome to join this group – we welcome everyone from any culture and any disability. It is a great opportunity for parents to share their experience and network with each other. Please contact Asoka at Disability Connect for more information or bookings – phone 09 636 0351 or 027 457 8571 or email asoka@disabilityconnect.org.nz

Indian and South Asian Families Support Group (Clover Park)

This hugely successful support group was established in October and November and after a successful meeting we agreed to continue. The next meeting is on the 12th December. This is held at Clover Park Community House. Indian and South Asian families raising a child or supporting a person with a disability are very welcome to this meeting. It will follow a relaxed 'conversational' environment. Everyone is free to talk amongst themselves, make new friends, connect for support or just ask any questions you may be interested in. Please email admin@disabilityconnect.org.nz or asoka@disabilityconnect.org.nz or phone 09 636 0351 or text/phone 027 457 8571 to book.

The viewer is challenged to engage both visually and emotionally with what it takes to define a good shape demonstrated in these works by Matthew Allerby, Russell Julian, Christina van der Hooft, Matthew Tucker, and Halina Janiszewska.

Imagine Better Assembly 2017

Will you friend me? Imagine Better is pleased to introduce you to Dr Al Condeluci and Janet Klees, who will be presenting at the February 2017 Imagine Better Assembly – Will You Friend Me? Both Al and Janet come with a wealth of experience, having been involved in the community sector, particularly building social capital and community bridges, for many years. At the session *Will You Friend Me?*, key aspects related to social capital will be explored; examining it from a generic perspective and looking at the possible strategies, actions, or aspects that may be utilised in support of any vulnerable population who have limited opportunities to build friendships. Our other session is *Building Community through Social Capital*. Individuals with disabilities and their family members (as well as professionals who are involved with the family) are interested in seeing themselves or their son/daughter/relative be successful in life. In fact, one of the biggest fears

individuals and families have is that their loved one might be lonely or at serious risk when they are no longer around. By understanding the impact of friendships in our lives, we can look at ways and means to better prepare for the future. Sociologists call this "social capital" and it is amazing what our relationships do for us. This session will help you think about how friendships can be better developed over time, and, in turn, build a more inclusive community.

Kids Connect Camp 2017

A camp specifically for children with physical and mild disabilities aged 9-16. It is held in Blockhouse Bay, Auckland. Our camps are conducted by experienced staff. [Centre for Chiropractic Research – Volunteers needed](#)

The Centre for Chiropractic Research, with AUT University, is involved in a research project that is being run as part of a Master's thesis by Dr Alice Cade. This study investigates if there are any changes in eye tracking abilities before and after getting a chiropractic adjustment. The focus of the study is that a chiropractic adjustment may make eye tracking easier thereby improving ADHD kids' ability to read, learn and behave in class. This study is not a treatment for ADHD or eye tracking problems. Children will take part in two sessions (around 30mins each) over a week at the New Zealand College of Chiropractic in Mt Wellington. To be eligible to participate, kids need to be:

- 8 – 15 years of age
- Have a previous diagnosis of ADHD
- Not have any major visual disability (seriously impaired vision, cataracts or eye trauma)

Please contact Alice Cade for more information. Chief Investigator: Dr Kelly Jones

Co investigators: Dr Kelly Holt & Dr Alice Cade email alice.cade@nzchiro.co.nz or 021 400739

[Mum creates the easiest cookbook](#)

Wellington mother Jenny McClure has released a cookbook she wrote especially for her son and others that struggle with traditional cookbooks. 30 year old Joe McClure suffered a traumatic brain injury after he was hit by a car while cycling in Cambridge, UK, 17 years ago. The then 13 year old spent 10 days in an induced coma and underwent major surgery. Years later when he left home to go and live by himself, it soon became clear that standard cookbooks didn't work for him, she couldn't believe how crazily and complicated they were and her son really struggled to follow them and so the idea for Short Takes: Making cooking simple was born.

[MyCare](#)

The new way to find support workers. MyCare is bringing technology and community together in a dedicated online platform for people needing at-home care and support. They've built a mobile marketplace, connecting individuals needing help to live comfortably at home to a nationwide network of care workers, part-timers and volunteers. The service aims to break down the barriers. The site already has nearly two thousand workers from nurses and care workers to students looking for work while they study. Here is their updated [flier](#). Visit www.mycare.co.nz or phone 0800 677 000. In October, we released new tools and people can now set up a contractor agreement using MyCare's templates, book their support worker's visits through their MyCare account, assign tasks for the day and keep their support circle of family and friends in the loop. They'll be able to see all visits at a glance and know what's happening every week. Once they've registered, users will have access to these tools:

- **Match** – find someone to provide support or care for themselves or a family member
- **Manage** – it's easy to coordinate support visits and pay workers safely and securely
- **Share** – invite family and friends into the support circle so they know what's happening just by logging in.

If you have any questions about how the service will work for members of your community, you may like to visit our [Help Centre](#)

The group decides at the beginning of each term and we support them in their social outcomes. This is fun and interactive way to make friends and get out in the community.

[Phd Student requiring participants into peoples insights into holidays with their disabled family members.](#)

Brielle is a student at the University of Waikato. Alison, Cheryl and Simon are her supervisors. Brielle will interview you for her study. Alison might help her interview you. The study is about your experiences of travelling on holiday with your family, carer or support worker. By helping us with our study, we can help other people travel with their family, carers or support workers. The aim of this study is to develop a more holistic understanding of what care means to your lives, in the hope that we can further support and enable independent travel for other carers and people with intellectual disability, and raise awareness of the valuable 'work' you do, in wider society too. For more information please look [here](#) to see if you would like to participate. Carer and support information [here](#).
