Dear Families,
What if connection didn't need words? What if joy could be felt through a beat, a vibration, a shared rhythm?

This October, we invite you and your child to an **interactive drumming session** with **Chewy** from **Rhythms for Souls**. This is not a performance – it's a hands-on, sensory-friendly experience for disabled children and their parents to enjoy together.

No musical experience needed. Just bring yourselves, your hands, and an open heart.
