

MASSEY UNIVERSITY
INSTITUTE OF EDUCATION
TE KURA O TE MATĀURANGA

Do you have a whānau member with communication needs who has recently transitioned into an adult service?

Did you support them through this transition?

If so, you are invited to share your experiences and views about their transition journey

My name is Elena, and I am a fourth year speech and language therapy student at Massey University.

As part of my honours research project I will be conducting interviews to better understand the move beyond school for young adults with communication needs and their whānau.

This research hopes to guide professionals in how to best support them and their whānau through this transition process
